Transition Plan

Engaged with adult service

It's complicated

Definitions

‘The purposeful, planned movement of adolescents and young adults with chronic physical and medical conditions from child-centred to adult-orientated health care systems’

‘A multi-faceted, active process that attends to the medical, psychosocial and educational/vocational needs of adolescents as they move from the child-focused to the adult-focused health care system’

(Blum et al, 1993)

‘A purposeful planned process that addresses the medical, psychosocial and educational / vocational needs of adolescents and young adults with chronic physical and mental conditions as they move from child-centred to adult-oriented health care systems.’

(DH, 2006)

‘Transition is defined as a purposeful and planned process of supporting young people to move from children's to adults' services’.

‘The process of moving from children's to adults' services. It refers to the full process including initial planning, the actual transfer between services, and support throughout.’

(NICE, 2016)

'Our' definition

'The purposeful, planned process of preparing and moving young people and their families or carers from child-centred healthcare to adolescent or adult oriented healthcare'

(adapted from Blum et al, 1993)

Has anyone got the answer....

- Reviewed:
 - National and international transition programmes and strategies
 - Trust practices
 - Reviewed all Trust transition information

Current practices

- Multiple specialties, some with established transition programmes in place.
- Resource 'rich' specialties
- Limited resources

The Challenge

Question:

How can we start transition by the age of 14?

Answer:

Get rid of transition

Growing Up, Gaining Independence:

enabling young people to fulfil their potential

GUGI

- 2 Part strategy:
 - Generic
 - Specialty Specific

Part One:

Generic Skills, Knowledge, Understanding and Information

1. Encourage young person to see healthcare professionals without parent/carer present
2. Legal and financial
3. Health and development
4. Medical History (General)
5. Managing appointments
6. Local service changes

A group of diverse people, including men and women of various ethnicities, are standing together in a bright, indoor setting. They are all smiling and looking towards the camera. The background is slightly blurred, showing what appears to be a large room or a stage. The overall mood is positive and inclusive.

Part two:

Specialty Skills, Knowledge, Understanding and Information

- Usual age of transfer from service
- Identity of specialty transition coordinator/contact
- Medical history (Chronic illness/disability)
- Medication knowledge/ medical equipment
- Support Organisations/ charities
- New service information

A group of diverse young people, including men and women of various ethnicities, are standing together in a brightly lit room. They are all smiling and looking towards the camera. The background is slightly blurred, showing what appears to be a modern interior space with large windows and some architectural elements. The overall mood is positive and inclusive.

New service information

- What they do
- Who/how to contact
- Clinics/OPD/Day-case
- Inpatient admissions (if applicable)
- Young person/young adult groups
- LD and additional needs provision

Learning Disabilities and Additional Needs

- Young People with a Learning Disability or Additional Needs may need support and/or information in alternative formats to facilitate understanding.
- Encourage/support use of Health Passport or equivalent

Transition Improvement Steering Group

- GOSH Young People's Forum (YPF)
- Other young people
- Parents/carers
- Multi professional input-including Administration
- Primary Care

Next stages

- Piloting and refining
- Developing supporting resources

Dashboard	Description	
Transition Clinic List by Consultant	Monthly list of clinic appointments, by consultant, for patients aged 16 and over	★
Transition Clinic List by Specialty	Monthly list of clinic appointments, by specialty, for patients aged 16 and over	★

- Getting ready for Electronic Patient Record (April 2019)
